## TRUCKING FOR CHRIST

### A Demon Possessed Trucker Gets Saved and Another Trucker Goes Beserk!

These events took place on two separate Sundays. Last Sunday, as I was giving the plan of salvation to a Catholic trucker, another trucker walked in and sat at our table and said, "There is something I have to show you." He took out his cell phone and showed me a picture of a painting he has on his wall at home. He said the objects in this painting move by themselves, and that people appear and reappear!

He told me that he has several friends that are seriously practicing witches, and he can see demons, even in the chapel next to us. About this time, the Catholic trucker said he had to be going and made a hasty exit! The trucker with the demons seemed very sincere, and told me he was glad to find a man of God.

The first thing I did was to claim the Blood of Jesus, and command any and all demons to be gone from that man and the room we were in. I told him he needed to get saved right now, and when he gets back home to destroy that painting, preferably by burning it, and disassociate himself of all his occultic friends. I then presented the Gospel to him, and I could see he was being pulled away to go do something else. But I stayed persistent that he sit there until I was done talking. I preached the Book, the BLOOD, repentance, and that he should get saved while he can. He prayed and asked Jesus to come into his heart and save him. Praise God! He was given some Chick Gospel tracts that he started reading as he left. I also give them free King James Bibles, and instructions on how to grow in Christ.

That was last Sunday. Today I went to hand a Gospel tract to a black trucker. He started yelling at me that he did not want 'that racist stuff'. He also yelled that he didn't need Jesus, or any white European or Jewish religion! He was beyond talking any sense to, so I simply told him he would believe in Jesus someday, even if it's from hell. Finally, a black Christian woman, who worked there, told him to be quiet and hit the road. If anyone thinks that trying to win truckers to Jesus is boring, guess what! There is seldom a dull moment! A few weeks ago 7 people were saved in a one service. Thanks also for any donations for tracts, gas, Bibles, and car maintenance. Your prayers and help make a difference! Thanks!

## DESTROYING AMERICA Pt. 11

As Rahm Emanuel said during the 2008 financial crisis which was created by two Demonrats; Ted Kennedy and Christopher Dodd, "Never let a crisis go to waste". Emanuel wasn't the first to say it and probably won't be the last. The problem with this quote is that Trader Joe and the Deathocrats are still using this motto as their play book to kill America with everything they're currently doing.

With all that's going on around us, I think to myself, where are they coming up with all of these destructive ideas? And then I realize that it's coming from their father, Satan. The one that comes to kill, steal and destroy (Jn 10:10) and America is in his sights.

Recently, they've used Covid-19 to kill 1,000's of elderly and others with the poisonous poke to further their goal of world depopulation. The jab is also changing human DNA so they can own us. You don't have constitutional/human rights if you're no longer fully human.

They hijacked the Jan 6th rally to discredit and impeach President Trump after he left office in an attempt to keep him from running for office again. It's not working so they're creating criminal charges against him and his children to get rid of all of them.

I note these things because Traitor Joe is doing it again with the Ukraine/Russian crisis. Putin doesn't want a NATO country on his border and he's afraid that Ukraine will be added. He also wants to reestablish the old Soviet Union. Traitor Joe wouldn't give him a guarantee Ukraine wouldn't be added, so Ukraine became the 1st country Putin wants to re-annex before moving onto the next one.

The Demonrats know that oil is the life blood of a prosperous modern society. It not only fuels our vehicles, manufacturing machines and provides electricity and heat for our homes in the winter, it's the source of all the plastic products we use every day.

After cutting off the XL pipeline, shutting off Anwar drilling in Alaska, etc., we are no longer energy independent. Sleepy Joe has been begging OPEC and Russia to export more oil but they have refused.

On the same day Russia invaded Ukraine, behind the scenes, Traitor Joe place more restriction on oil production from Federal government land. So, instead of allowing more U.S oil production to relieve the pressure for our oil needs, he is using the Ukraine situation to further restrict the world's oil supply. By never letting this crisis go to waste, he is intentionally choking America to death.

There is talk that Traitor Joe's next move will be to ban U.S. companies from buying Russian oil. We bought 254M barrels of Petroleum from Russia last year. Where do we go to fill that kind of a short fall while he continues to restrict our own production?

As I write this on 3/7/22, oil is at \$120/barrel and still rising. GasBuddy says we set two records today. First, this raises the average cost of a gallon of gas to \$4.10/gallon breaking the 2008 record for the highest price ever. This is nearly double what the average price was during Trump's entire 4-year presidency.

Second, gas prices increased by a whopping 49.1 cents per gallon in the past week smashed the previous weekly record increase created by Hurricane Katrina in 2005. Future stock traders have oil at \$200+/barrel by the end of this month.

If Russian oil purchases are banned, no one knows how high the price will go. At what point does it break our economy and we enter a depression? The cost of oil affects everything. Inflation was already costing the average family an additional \$5K/year before this war. What is it at now? This could be devastating for those that are on a fixed income or haven't planned for the proverbial "rainy day"!

This is all by design. The Deathocrats have said for years that we should be paying the same price for gas as the European countries which ranged from \$7-\$10 a gallon before this oil squeeze. It looks like we are headed there very soon.

If we continue buying Russian oil at \$120/barrel, that's \$30.48B/yr. or \$83.5M/day. What will we be paying them at \$200+/ barrel? Bottom line, thanks to our Commander and Thief, we are financing Russia's war against Ukraine!

30M barrels of oil have been released from our Strategic Reserves and the Demonrats think we should be happy they did that for us. We use 18M barrels a day, so this is less than a two day supply which does next to nothing to relieve the gas price pressures.

The Deathocrat solution to the problem is for everyone to buy an electric vehicle (EV). This gas crunch is planned to pressure us into doing this.

The first problem is that EV's cost an average of \$55,000. There aren't too many people that can afford that. Second, you would have the problem of generating enough electricity to power all of them. Third would be the long lines waiting to get powered up.

Remember the long lines for gas back in 1973 and 1974? It only took 3 or 4 minutes to fill up (or get the restricted 10 gallons). It will take at least 30 minutes to power up an EV to 80% and double that to 100%. This will get you as much as 250 miles down the road before you would have to do it all over again. That's not practical if you're taking any kind of a longer trip. A trip from OH to FL would be 4 power ups on the way but only 2-3 gas stops depending on the size of your gas tank; 2 hrs. vs. 10-12 min.

## Graphene Is Being Transmitted from the “Vaccinated” to Vaccine-Free People

BY RHODA WILSON ON FEBRUARY 24, 2022 • ( 25 COMMENTS )

Listen Now

In his latest set of slides of blood samples taken from both “vaccinated” and unvaccinated people, Dr. Philippe van Welbergen demonstrated that the graphene being injected into people is organising and growing into larger fibres and structures, gaining magnetic properties or an electrical charge and the fibres are showing indications of more complex structures with striations.

He also demonstrated that “shards” of graphene are being transmitted from “vaccinated” to vaccine-free or unvaccinated people destroying their red blood cells and causing blood clots in the unvaccinated.

Dr. Philippe van Welbergen (“Dr. Philippe”), Medical Director of Biomedical Clinics, was one of the first to warn the public of the damage being caused to people’s blood by Covid injections by releasing images last year of blood samples under the microscope.

At the beginning of July 2021, Dr. Philippe, was interviewed on a South African community channel, *Loving Life TV*. He explained that when his patients started complaining about chronic fatigue, dizziness, memory issues, even sometimes paralysis and late onset of heavy menstruation (women in their 60s upwards), he took blood samples. Their blood had unusual tube-like structures, some particles which lit up and many damaged cells. Few healthy cells were visible. Until three months earlier, he had never seen these formations in blood. We now know these tube-like structures are graphene.

Since then, Dr. Philippe has been a regular guest on *Loving Life TV*: blowing the whistle on the experimental Covid injection roll-out; providing updates on the increasing damage being done to blood by the experimental Covid injections over time; and, giving updates on the Covid situation in the UK and South Africa.

Steve Bannon went off on sell-out Bill Barr on Tuesday's show. This was after the former Attorney General turned on Trump and landed on the liberal media guest list to push his new book.

**Steve Bannon:** "We's Walter Mitty. He's a nerd and been a nerd all of his life. He not just stabbed Trump in the back he stabbed the nation in the back. On this hard drive from hell, what he did, he suppressed this

information so that what the elites in our country were doing, compromised by the Chinese Communist Party and all of the situation in Ukraine, stealing money with both hands. Barr, It's all going to come out... **And we're going to have a field day going into the details of what a total and complete scumbag you are...** You had this in December of 2019 (Hunter's laptop) and you actively suppressed it from the people of the United States... Don't worry about joining a law firm. You better lawyer up... Nothing gets me worked up as much as these guys, the scum of the Bush, that are just complete filth and trash. And we're going to do it with facts. We're going to walk you through the facts of what Bill Barr knew and when he knew it. And Chris Wray. Throw Chris Wray into the pile too.

## Democrats Roll out a Desperate Strategy to Deflect Blame for Their Failures

Unless the goal is to receive backslaps from a sycophantic mainstream media, it's not a good time to be a Democrat. Things have collapsed in ways that didn't seem possible over the last six months. Sure, it was expected that the party in power would see some regression, but at this level?

Inflation continues to be a top concern among Americans, with January's number clocking in at another multi-decade high. People are seeing their buying power eroded, and with gas prices set to explode further over the next year, there is no relief in sight. Meanwhile, Russia is on the verge of starting a major war in Europe, Afghanistan is now a terror state, the border is in shambles, and COVID-19 has killed more people under Joe Biden, with vaccines available, than under the previous president.

## Psychologist claims unborn babies can give permission for abortion

**'Will telepathically communicate to the mother that they agree to be aborted'**

Live Action News

In the article “Conscious Abortion: Engaging the Fetus in a Compassionate Dialogue” in the *Journal of Prenatal and Perinatal Psychology and Health*, psychologist Claudette Nantel encourages women to communicate with their baby before an abortion, tell them how much they love them, say goodbye, and even get their child’s *permission* for the abortion.

Really.
